

Fibre Coupled Lasers/Laser Diodes

Fibre Coupled Laser modules & Laser Diodes

We have introduced a range of fibre coupled lasers/laser diodes to work in a wide range of applications.

The modules/laser diodes are available in various package types, fibre options and connector choices.

Options include TEC cooling for wavelength stability, photodiode monitoring for power stability and hermetic sealing for improve reliability.

For further information please visit our stand at the Vision Show, Stuttgart.

Key Benefits

- 630 to 1560nm Wavelengths
- Wide range of powers
- Various Package types including:
 - 14 Pin Butterfly
 - Mini-Dil
 - TO 56F
 - TO9MMF
- Options Including:
 - TEC Cooling
 - Monitor PD
 - Hermetic Sealing
- Custom Solutions offered
- Quick Delivery
- Competitive Technical Support
